

For Corporate, Partnership and Individual Income Tax Returns

If you are looking for online income tax filing, please [click here](#) . The following information is for the MeF program, not online income tax filing.

Utah has developed an e-file program jointly with the Internal Revenue Service called the Fed/State MeF (Modernized Electronic Filing) Program. This program allows taxpayers to electronically file both federal and Utah corporate, partnership or individual income tax returns together. Corporate, partnership, and individual income tax filing is currently available.

If you would like to use this program, contact your [tax software vendor](#) or accounting service to see if they support this.

For questions about this program, contact mef@utah.gov .

Information for Software Developers

Tax Type	Tax Year
Business Taxes	2007 2008 2009 2010
Individual Income Taxes	2009 2010

Listing of Software Providers

The following companies provide commercial software products for this service. Contact the companies directly for more information. Providing this non-comprehensive list does not indicate a preference or endorsement for any individual product on the part of the Utah State Tax Commission.

These companies may also be able to provide contacts to tax practitioners that use their products.
